

## Rennes Biophotonics Workshop

### When?

20th of January, 2015

### Where?

University Hospital of Pontchaillou (Rennes), within the "health campus" of Villejean which gathers the faculties of Medicine, Pharmacy and Odontology of the University of Rennes 1. It also offers many technology core facilities open to academia and industry, such as [PRISM](#) (functional imaging), [MRic](#) (microscopy), [H2P2](#) (Histopathology), [Neurinfo](#) (neuroimaging), [ImPACcell](#) (Imaging for Cell Content Analysis) and health genomics.

### How to get there?

Enter by the main entrance of the "[Centre Cardio-Pneumologique](#)" (big white building) just in front of the **Pontchaillou metro station**, turn right then straight on to the "**Amphithéâtre de Labarthe Club medical**".

### Objectives of the workshop:

- Exchange about the Smart Specialization Strategy (S3) of each OASIS region / country
- Presentation of local Biofacilities (Flow Cytometry, Bio-Imagery and MRI) with a focus on their specific needs in Photonics (e.g. laser sources, fiber sensors)
- Presentation of SMEs with a focus on Photonics applied to Flow Cytometry, Bio-Imagery and MRI
- Networking and B2B

For more information please refer to H. Saint-Jalmes webinar presentation at <http://www.fp7-oasis.eu/Downloads>

### Travel refund

There is a possibility of partial refund of SME travel expenses from project partners.
